

03 Hotel Accommodation Policy

India-focused synthetic enterprise reference policy | Version 1.0 | Effective 01 January 2026

PROVENANCE: This is a synthetic reference implementation created for RAG development. It is not an actual company policy. Production use requires replacement with the adopting company's approved policy, limits, grades and approval matrix.

1. Scope, Purpose & Definitions

Purpose

This policy establishes a controlled framework for authorizing, booking, paying, documenting and reimbursing business travel and related expenses in India and for international business trips originating in India.

Business travel must be necessary, reasonable, economical and connected to an approved business purpose. Limits are ceilings, not spending targets.

Where this policy refers to an approved channel, supplier, rate card, employee grade or approval authority, the production organization must populate those values from its current controlled source.

Definitions

Business trip means approved travel away from the employee's normal work location for company business. Domestic travel means travel within India; international travel means travel crossing an international border.

Per diem means a fixed daily allowance where the applicable rate card permits fixed-rate reimbursement instead of actual documented meals.

Personal expense means a cost primarily for personal convenience, leisure or private travel and is not reimbursable unless expressly allowed.

Core controls

Employees must not split, duplicate or deliberately misclassify expenses to avoid a limit or approval requirement.

An approved expense must still satisfy the applicable policy rule. Manager approval does not convert a prohibited expense into an eligible expense.

Questions requiring live information such as airline schedules, current exchange rates or current tax law should be answered using the relevant live system rather than a static policy.

5. Hotel & Accommodation

Booking & limits

Hotels should be booked through approved channels. Employees must select a property within the applicable city and grade limit.

Hotel limits are maximum nightly amounts. Production rate cards should specify whether taxes are included or reimbursed separately.

Where the approved rate is unavailable, the employee should document the search and obtain the required exception approval when practical.

Room and services

Business-use internet is reimbursable when necessary and not included in the room rate.

Breakfast included in an eligible room rate is part of the room expense. Separately purchased breakfast follows meal rules.

Laundry may be reimbursable for eligible extended or international trips. Mini-bar, movies, spa, personal room service and leisure charges are not reimbursable.

Cancellation/no-show

Business-driven hotel cancellation fees are reimbursable when documented. No-show fees caused by personal error without a business reason may be rejected.

Refundable rates should be considered when itinerary uncertainty is material and the incremental cost is justified.
