

06 International Travel Policy

India-focused synthetic enterprise reference policy | Version 1.0 | Effective 01 January 2026

PROVENANCE: This is a synthetic reference implementation created for RAG development. It is not an actual company policy. Production use requires replacement with the adopting company's approved policy, limits, grades and approval matrix.

1. Scope, Purpose & Definitions

Purpose

This policy establishes a controlled framework for authorizing, booking, paying, documenting and reimbursing business travel and related expenses in India and for international business trips originating in India.

Business travel must be necessary, reasonable, economical and connected to an approved business purpose. Limits are ceilings, not spending targets.

Where this policy refers to an approved channel, supplier, rate card, employee grade or approval authority, the production organization must populate those values from its current controlled source.

Definitions

Business trip means approved travel away from the employee's normal work location for company business. Domestic travel means travel within India; international travel means travel crossing an international border.

Per diem means a fixed daily allowance where the applicable rate card permits fixed-rate reimbursement instead of actual documented meals.

Personal expense means a cost primarily for personal convenience, leisure or private travel and is not reimbursable unless expressly allowed.

Core controls

Employees must not split, duplicate or deliberately misclassify expenses to avoid a limit or approval requirement.

An approved expense must still satisfy the applicable policy rule. Manager approval does not convert a prohibited expense into an eligible expense.

Questions requiring live information such as airline schedules, current exchange rates or current tax law should be answered using the relevant live system rather than a static policy.

8. International Business Travel

Pre-travel

International travel requires business approval and completion of passport, visa, immigration and destination requirements.

Business visa fees are reimbursable when required for approved travel. General personal passport issuance is normally not reimbursable.

Foreign currency

Foreign expenses should be claimed in original currency and converted using the corporate card statement rate, approved exchange rate or finance-prescribed method.

Reasonable foreign exchange or bank charges directly caused by approved business travel may be reimbursable.

Insurance and disruption

Corporate travel insurance or approved travel insurance may cover eligible business travel risks. Duplicate personal coverage is not reimbursable.

Emergency accommodation and transport caused by covered disruption may be reimbursable subject to documentation and any insurance recovery.

Personal extension / bleisure

Employees may extend a business trip for personal reasons only when permitted and when the company bears no additional cost caused by the personal extension.

Additional personal hotel nights, meals, transportation, fare differences and other private costs are the employee's responsibility.
