

07 Communication Expense Policy

India-focused synthetic enterprise reference policy | Version 1.0 | Effective 01 January 2026

PROVENANCE: This is a synthetic reference implementation created for RAG development. It is not an actual company policy. Production use requires replacement with the adopting company's approved policy, limits, grades and approval matrix.

1. Scope, Purpose & Definitions

Purpose

This policy establishes a controlled framework for authorizing, booking, paying, documenting and reimbursing business travel and related expenses in India and for international business trips originating in India.

Business travel must be necessary, reasonable, economical and connected to an approved business purpose. Limits are ceilings, not spending targets.

Where this policy refers to an approved channel, supplier, rate card, employee grade or approval authority, the production organization must populate those values from its current controlled source.

Definitions

Business trip means approved travel away from the employee's normal work location for company business. Domestic travel means travel within India; international travel means travel crossing an international border.

Per diem means a fixed daily allowance where the applicable rate card permits fixed-rate reimbursement instead of actual documented meals.

Personal expense means a cost primarily for personal convenience, leisure or private travel and is not reimbursable unless expressly allowed.

Core controls

Employees must not split, duplicate or deliberately misclassify expenses to avoid a limit or approval requirement.

An approved expense must still satisfy the applicable policy rule. Manager approval does not convert a prohibited expense into an eligible expense.

Questions requiring live information such as airline schedules, current exchange rates or current tax law should be answered using the relevant live system rather than a static policy.

9. Communication Expenses

Mobile, roaming & data

Business mobile usage during approved travel may be reimbursed under the corporate plan or approved roaming package.

International roaming should use the approved provider where available. Personal calls, premium content and entertainment are excluded.

Temporary SIMs and data plans may be reimbursed when necessary for approved international business travel and properly documented.

Internet & meeting costs

Hotel internet, business connectivity and conference communication charges may be reimbursed when required and not already provided.

Employees should use corporate communication tools for sensitive business information.
